LAQUERED

If you've never heard of it, it's just another name, but it's the epitome of quality for anyone who has. A new concept in the production process, the result of years of studies and consultation with the foremost coating manufacturers and with university research centres studying materials and technology. All this has made it possible for us to be the first in Europe (second in the world) to apply ceramic flooring production technology to wood flooring: a high resistance for a new generation of scratchproof varnish. Mazzonetto offers its wood finished with 7 layers of Ceralo, a process that ensures the lasting endurance of the original characteristics in every kind of wood. A process that not only enhances its beauty, but also revolutionises a much more important factor: time.

NATURAL OIL

Natural unfinished wood for those who want to bring the natural warmth and tone of wood into their homes. It reawakens that pleasant feeling of relaxation in us as we caress barefoot across the room as our memories slip back to an ancient country farmstead.

NATURAL OIL

Natural Oil for those who want something new but don't want to lose the unaltered beauty of wood and refuse to go without the natural feel it offers.

ADHESIVE (1 drum of 9 Kg. component A + 1 drum of 1 Kg. component B)

2K epoxy-PU adhesive. Adapt to lay traditional and prefinished (prevamished) wooden floors of all shapes and sizes onto cement, waterproof cement and nonabsorbent floors (ceramic, porcelain stone, marble, etc.). Also suitable for gluing onto heated sub-floors. Outstanding adhesion.
Price: € 6,00/kg (approx 1.30 kg/sqm)

PRYMER (1 drum of kg.12)

Solvent and water free 1K PU primer. Fast drying (45-50 mins) suitable to consolidate friable substrates and create a damp proof membrane (DPM) on humid subfloors.
Price: €16,00/kg (approx 2,50 kg./sqm)

* ALSO AVAILABLE: mono component adhesive and sylanic adhesive for flooring installations and natural oil and soap for the maintenance of indoor and outdoor wooden floors.

Price € 50,00

General sales conditions

- Orders:** Orders passed on by agents or salesmen are subject to acceptance by the Company and become legally valid only after written confirmation by Mazzonetto or by the general agent.
- Dimensions:** All dimensions/size of the planks even if specified on the order confirmation and price list are intended as approximate.
- Transport:** The goods travel at the Client's own risk at all times even if sold free at destination. Damages or loss of materials are the responsibility of the receiver and all claims are to be directed to the transport/logistic agency who handled the delivery. Some goods may be returned ex-works Mazzonetto factory upon agreement from both the receiver and Alberto Mazzonetto snc. Transport fees may vary accordingly to location of delivery and size of the load.
- Delivery:** The delivery terms are intended as approximate. Alberto Mazzonetto snc is not responsible in any way should the goods exceeds the agreed date of delivery due to transportation/logistic issues of any kind.
- Damages:** Alberto Mazzonetto snc is not responsible in any way for delivered product that has suffered damages due to improper storage prior to installation and for product that is or gets damaged due to improper installation methods, unsuitable job sites/work areas, laying areas not yet ready for installations and all related issues.
- Claims:** Inspection of the materials must be carried out on their arrival. The recipient must carry out an immediate inspection on the arrival of the goods and communicate possible damages immediately or refuse to accept the goods. Any disputes, including those concerning the humidity content, colour, tone, type and accuracy of measurements must be raised with registered letter within eight days from the receipt of the goods and in any case before the installation is started. The working or sale of the materials by the buyer constitute their recognition of the materials in correspondence to that agreed upon and the suitability for their planned use, as well as refusal to any contention or objection. In the event possible defect are encountered during installation, the buyer must suspend the operation immediately and inform Mazzonetto, failing to do so the rights of the recipient will decay. The obligations of Mazzonetto can not go beyond the collection and replacement of the materials recognised as defective. Possible claims and disputes do not give the buyer the right to suspend or delay payments.
- Samples:** All samples viewed or delivered are purely representative and for illustrative purposes only. Since wood is a natural fiber and different lots of timber may vary, the actual order/delivery may have some variation in the color tone, the fiber, the grain and the size.
- Drying:** The materials supplied by ourselves must be laid on a well dried and levelled floor foundation. The drying of our parquets is guaranteed between 8% and 12%. Possible claims will be taken into consideration only if the materials have not been laid and with the original packaging intact (not opened, nor damaged).
- Prices:** In the event of cost increases of labour or raw materials, enclosed therein freight, transportation, customs duties and exchange rates have occurred prior to delivery, the seller will have the right to revise the price corresponding to the value and the effect of the above mentioned increases, subject to the freedom for the buyer to withdraw from the contract in the event that the said increases are excessive, thereby renouncing any claim of compensation for damages or the like towards the seller.
- Payments:** Payments are valid only if made directly to the Company in accordance with the agreed methods. Payments agreed through bills of exchange are always considered supplementary and do not change the place of jurisdiction.
- Delayed Payments:** Following the first non payment or delayed payment of an instalment agreed upon in the contract, the buyer will automatically forfeit from the benefit of the terms and the Company can act alternatively to their unquestionable choice, or for the entire balance or for the simultaneous and immediate resolution of the contract. The title retention is an integral part of the contract and therefore the buyer is obliged to present following the request by Mazzonetto, the resale documentation so that Mazzonetto can assert their rights towards the end customer. In the event of non-payment, the buyer gives their rights to Mazzonetto. The supplied goods remain the property of the seller until the full sum is paid and this is also valid if the buyer has resold the goods.
- Interest:** They shall be applied in compliance with current bank rates.
- Place of Jurisdiction:** The Court of law of Padova shall be the sole competent authority for any controversy.
- Validity:** In the event of invalidity of one or more conditions of this contract, the contractors will provide for the replacement measures that are economically approximate to the conditions that have become ineffective.
- Important:** The presence of sapwood does not exclude possible attack from Lyctus (woodworm) after laying.
DOUSSIE: some oxidated elements may become darker.
DOUSSIE and WENGÉ: may contain white silicon spots that appear when oxidizing and that do not constitute a defect or an element that can be contested.
OAK: the blazes / mirror effect is part of the characteristics of the species and do not constitute a defect.
The stained effect after laying does not constitute a defect. Exotic woods are generally subject to certain colour changes due to oxidation and UV rays and consequently the chromatic variations of the samples are natural. Depending on the type of wood, the tone of the recently produced flooring does not correspond with the sample and stabilises after a period of time after oxidation and the action of the UV rays, and these chromatic changes do not constitute a dispute.
- Returns:** Must be authorized by the Company and shall be accepted only if delivered carriage free, in integral packaging and no later than 30 days from delivery.
